PROFESSOR BARONESS SUSAN GREENFIELD CBE, FRCP (HON)

President and Founder of Neuro-Bio Limited

The 21st century is delivering new technologies that are transforming our environment in unprecedented ways. Professor Baroness Susan Greenfield analyses the possible impact of these transformations on the human brain, our minds and consciousness. In her lecture she also addresses big problems of our time such as Alzheimer's disease.

Baroness Susan Greenfield CBE is a research scientist, author and broadcaster. She is president and founder of Neuro-Bio Limited and has held research fellowships in the Department of Physiology in Oxford, the College de France in Paris, and NYU Medical Center in New York. She has been awarded 32 Honorary Degrees from international universities and heads a multi-disciplinary research group.

*Registration necessary: gbz@gbz.hu-berlin.de
Everyone is welcome to attend.*
